VIVAMAYR Foot Wellness

VIVAMAYR Holistic Foot Spa
Realise your true potential.

75 mins €95.00

The aim of Modern Mayr Medicine is not only to regenerate the body but also to regenerate your spirit and your soul. This deeply moving ritual uses the powers of a salt bath and footscrub, reflexology foot massage, high quality precious stone aromatherapy oils, TCM and the Metamorphic Technique. This treatment will help unblock energy and release the mind of stress.

We all have great potential, but due to limiting beliefs that we hold about ourselves and our lives, we tend to get ourselves stuck in particular patterns that keep us from fully realising that potential. These patterns can show up in various ways - physical or mental illness, emotional problems, limiting attitudes or repeating patterns of response or behaviour.

The Metamorphic Technique offers us a new and fascinating way to look at life and also offers us the possibility of changing it by releasing our subconscious resistance. The practitioner acts as a catalyst to the client's own life force energy. Releasing points in your body that prevent energy from flowing freely.

At the end of your cure this sustainable treatment will allow you to go back to your daily life feeling holistically strengthened and supported. This treatment is highly recommended for those who suffer from stress, anxiety and lack of energy.

Available from Friday to Monday. Please book in advance.
